

Students in fall term Calculus I:

Your calculus class has been selected to participate in a nationwide survey of Calculus I instruction, funded by the National Science Foundation and run by the Mathematical Association of America. The goal of this study is to improve college-level calculus by enhancing our understanding of who takes calculus and what factors contribute to a successful course. We need your help to do this.

Please go to <https://www.surveymonkey.com/s/CKMHX5X?c=222> and complete the survey. It should take about 10–15 minutes of your time.

No individually-identifiable information about any student will be released to anyone.

Thank you for your assistance in this important study. Toward the end of the term, you will be asked to go back online to comment on your experience of the course.

If you have any questions, please contact the MAA: programs@maa.org.

Sincerely,

David Bressoud, President
Mathematical Association of America, www.maa.org
